Improvisation: Patterns & Progressions for Styles

Ballad Style Strumming Accompaniments

Any arpeggiated (broken) chord pattern can serve as a "strumming" accompaniment. Although any time signature may be used, for this improvisation, use either 3/4 or 6/8 time. Your pattern should span one octave. The following examples serve as models.

1. 2.

3. 4.

Waltz Accompaniments

Waltzes will always be in triple meter. For a waltz accompaniment, you may choose to stay in closest position, or you can create a more interesting bass line and move to the closest position from the bass note.
